Taxmann, New Delhi July 2012 -- March 2019

UX Architect

As an experienced designer, I bring strong leadership and effective team management skills, with a proven track record in project coordination and UX improvement. I specialize in translating business goals into user-centric solutions through in-depth user research, competitor analysis, and usability evaluation. I work closely with stakeholders and cross-functional teams to understand project requirements and deliver intuitive, innovative designs. From wireframes and storyboards to high-fidelity visual designs, I manage the entire design lifecycle—ensuring alignment with usability standards and seamless collaboration with development and QA teams.

Esoft communication, Grugram July 2010 -- March 2012

UI / UX Designer and UI Developer

In this role, I collaborated closely with product managers, engineers, and QA teams to implement product enhancements and deliver user-centric solutions. I managed the entire visual design process—from concept to final handoff—creating interactive prototypes and presenting key milestones to stakeholders. My work focused on simplifying complex workflows, improving usability, and aligning design with business goals. I also developed process flows and site maps to communicate ideas effectively and stayed current with the latest UI trends, tools, and technologies to ensure modern, high-quality outcomes.

Cardinal Technology, Lucknow July 2008 -- March 2010

UI / UX Designer and UI Developer

Worked on solid computer-aided design and development, responsible for UI development of web pages using HTML5 and CSS3, transforming PSD wireframe designs into well-formatted, user-friendly web pages. Gained programming experience, wrote complex scripts, and ensured compatibility across multiple browsers.

- Collaborated with engineering and UX teams to translate visual designs into production-ready screens
- Troubleshoot UI design issues and implemented improvements to enhance webpage performance
- Developed interactive prototypes as proof of concept for clients and internal stakeholders

SRM Techsol Pvt. Ltd., Lucknow July 2006 -- March 2008

UI / Web Designer

As a Senior Web Visualizer at SRM Techsol (P) Ltd., I was responsible for designing graphic web page layouts and converting finalized designs into responsive HTML using CSS and jQuery. In addition to front-end development, I managed client requirements and oversaw project deployment at the client's end, ensuring timely delivery and alignment with expectations.
